

IEEE 1159.3 Recommended Practice for the Transfer of Power Quality Data WG

PES GENERAL MEETING 2015 MEETING MINUTES

MEETING LOCATION AND TIME

2015 IEEE PES General Meeting
Denver, Co USA

2015 July 27, 2015
15:00 to 16:00

MEETING MINUTES

ATTENDEES

1. Rich Bingham
2. Scott Peele
3. Dan Sabin
4. Theo Laughner
5. Carl Miller
6. Alex McEachern
7. Resa Arghanden
8. Steven Johnston
9. Walmir Freitas
10. Joseph Grappé
11. Tianya Ding
12. Kevin Kittredge
13. Urenna Onyeuuchi

The meeting was called to order Dan Sabin at 15:00. Minutes were recorded by Joseph Grappé.

OLD BUSINESS (15:08)

Meeting minutes from January meeting were reviewed and approved.

NEW BUSINESS (15:09)

Dan asked if there were any new patents anyone was working on new data interchange formats or patents. Dan did a quick overview of what the IEEE 1159.3 revision will cover via a presentation (both presentations given will be available on the working group website)

- Complete editorial changes
- Add new tags, tag quantity characteristicID Values, and ID values
- Add new Quantity types
- Add an annex on the representation of PQDIF in XML

- Add annex on PQDIF and its relationship to other standards such as IEC 61850 and IEEE C37.111
- An example of a rapid voltage change (RVC) format file
- A copy of the paper presented at CIRED 2015 was discussed and will be included in the minutes.
- All new vendor id, CharacteristicID, and equipment id were approved to go into the draft by the WG
- Dan discussed an addition of an annex to IEEE 1159.3 draft that will discuss the relationship to the IEC61850 standard and presented a brief presentation on the IEC standard.
