1) Discussion of the Physical Unit problems.

Garritt Foote had submitted a proposal for the corrections. T. Licht had made comments to change to the reverse definitions. A lengthy discussion followed. **Garritt Foote will circulate an updated document where the not too clear comments in the template file are removed, and a better and clearer explanation of the usage of the formulas follows immediately after the table. Torben Licht to try to make a formulation too, Garritt to combine, hopefully Monday. To be circulated asap for final acceptance.** After this the result will be incorporated in the Corrigendum and this circulated (**T. Licht**).

2) Next Meeting:

- a) Next meeting will be Thursday, November 3, 2005, at 2:30 pm EDT.
- b) Meeting adjourned: 3:50 pm EDT.
