

# *Wrapper Boundary Register (WBR) Tiger Team Status*

**Jason Doege, Grady Giles, Lee Whetsel  
March 30, 2000**

# ***WBR Tiger Team Update***

---

## **□ Status:**

- **Did a considerable amount of development which presumed a dedicated shift path. CTAG rejected that premise and has directed the WBR TT to provide for both dedicated and shared shift path wrappers. (back to the drawing board)**
- **Weekly conference calls**

## **□ Achievement:**

- **A tentative set of behavioral rules for wrapper operation under the WEXTEST instruction**
