Sitaram Yadavalli Intel

Alex Zamfirescu ASC

Lee Whetsel TI

Yervat Zorian LogicVision

Activities:

1.0 VSIA through Rudy Garcia has supplied us with some work they have done and we have added a number additional terms.

2.0 We have had one conference call where we have selected the topics and terminology that are important to us. We have gone through the list and created a preliminary definition for about half of these interesting terms.

3.0 We have 3 to 4 more conference calls to get a document that we can release to the larger group for (hopefully not endless) discussion.
