

1722 Meeting, 2016–06–21

Ashley Butterworth, the chair of 1722.1 working group, called the meeting to order at 9:11am. The meeting was held at National Instruments offices in Austin, Texas. Many thanks to National Instruments for hosting. Gordon Bechtel took notes in lieu of Don Pannell, IEEE 1722 secretary, who is absent today.

Attendance

- Gordon Bechtel, Bechtel Technologies
- Ashley Butterworth, Apple
- Rodney Cummings, National Instruments
- Eric Gardner, National Instruments
- Aaron Gelter, Apple
- Jeff Koftinoff, Apple
- Dave Olsen, Harman
- Greg Schlechter, Intel
- Kevin Stanton, Intel

Administration

Ashley showed the [proposed agenda](#). Dave suggested adding a discussion on AES–67 to the agenda. The group agreed to add this topic to “Other Items.”

Ashley read the IEEE patent slides and IEEE meeting guidelines to the group. No one voiced an issue regarding the need for an LOA (Letter of Assurance) on an essential patent.

Update on 1722–2016

The current 1722 standard can't be published because of an error in Figure I.14. Two fields are incorrectly labeled. To correct the problem, Dave has created a corrigendum to correct the figure.

The corrigendum PAR will be considered at the June 29 MSC meeting. To publish the standard as quickly as possible, the group needs to publish a draft of the corrigendum immediately after the MSC approval of the PAR. This will allow progress towards sponsor ballot as quickly as possible.

Scaling 1722.1 to Large Networks

See [Ashley's presentation with proposals to help with scaling 1722.1](#).

Routing AVTP

See [Ashley's presentation on using routers and/or gateways](#) to move AVTP packets between AVTP domains.

AVB/TSN Domain Detection

See [Ashley's presentation on the issue of detecting AVB domain boundaries](#) to assist with establishing streams between entities in separate AVB domains.

Review of Planned Work for 1722.1-REV

See [Ashley's presentation on ADP changes](#) to be added to the 1722.1 revision.

See [Ashley's presentation on ACMP changes](#) to be added to the 1722.1 revision.

See [Ashley's presentation on AECP changes](#) to be added to the 1722.1 revision.

Ashley adjourned the meeting at 15:23.
