Dear Gordon,

Thank you for the positive response. We discussed the proposed options a few times in the WG and with the BoD but have not arrived at a formal conclusion yet. We are considering leveraging the 1722 membership and expertise to address the technical issues identified and scoped in TWG4. I would like to request for some more time so that we are certain about the choice we make in the best interest of our members and the industry at large.

Thank you,

Mrudula Kanuri

TWG4 chair
