For FDP\_ACC.1 It's not clear who are restricted to access what TOE Functions.

The App. Note 19 states that it ""determines if a Normal User is allowed to access the functions that the TOE offers."" But App, Note 21 states that the SFR is to fulfill O.ADMIN.AUTHORIZED.

*SuggestedRemedy*

Clarify that the TOE Function Access control SFP is for administrative TOE functions, and is for controlling administrator's access, not for Normal User.
