IEEE 802.16 License-Exempt Task Group

Deadline: 6 September 2005

IEEE 802.16's License-Exempt (LE) Task Group <http://wirelessman.org/le> is working to develop a draft under the P802.16h PAR, which was approved by the IEEE-SA Standards Board on 8 December 2008. The PAR:

has the following scope statement: "This amendment specifies improved mechanisms, as policies and medium access control enhancements, to enable coexistence among license-exempt systems based on IEEE Standard 802.16 and to facilitate the coexistence of such systems with primary users."

The Task Group has been developing a pre-draft Working Document. This was considerably revised at the Working Group's Session #38. The current version is available as IEEE 802.16h-05/017:
