Re:	
Abstract	
Purpose	The document provides additional material for several comments to be considered during the process of comments resolution
Notice	This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.
Release	The contributor grants a free, irrevocable license to the IEEE to incorporate text contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.
Patent Policy and Procedures	<p>The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures (Version 1.0) &lt;<a href="http://ieee802.org/16/ipr/patents/policy.html">http://ieee802.org/16/ipr/patents/policy.html</a>&gt;, including the statement IEEE standards may include the known use of patent(s), including patent applications, if there is technical justification in the opinion of the standards-developing committee and provided the IEEE receives assurance from the patent holder that it will license applicants under reasonable terms and conditions for the purpose of implementing the standard.</p> <p>Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair &lt;<a href="mailto:r.b.marks@ieee.org">mailto:r.b.marks@ieee.org</a>&gt; as early as possible, in written or electronic form, of any patents (granted or under application) that may cover technology that is under consideration by or has been approved by IEEE 802.16. The Chair will disclose this notification via the IEEE 802.16 web site &lt;<a href="http://ieee802.org/16/ipr/patents/notices">http://ieee802.org/16/ipr/patents/notices</a>&gt;.</p>

# Fragmentation and Packing Formats

*Vladimir Yanover, Alvarion Ltd.*

The following pictures are suggested to replace Fig.169 in D3 to figure possible options of different sub-headers

Generic MAC Header	Grant Management Sub-header	SDU	CRC-32
	Optional (UL only)		

**Figure 1. MAC PDU without fragmentation and packing**

Generic MAC Header	Grant Management Sub-header	ARQ/ Non-ARQ Fragmentation Sub-header	SDU Fragment	CRC-32
	Optional (UL only)			

**Figure 2. MAC PDU with fragmentation and without packing**

Generic MAC Header	Grant Management Sub-header	ARQ / Non-ARQ Packing Sub-header	SDU or SDU Fragment	CRC-32
	Optional (UL only)	Can be repeated one or several times		

**Figure 3. MAC PDU with packing**
