The 10GBASE-LRM committee will meet at the Fairmont Hotel Vancouver Canada, Tuesday the 15th, Wednesday the 16th and Thursday morning the 17th of November 2005.

 The full IEEE 802 meeting notice can be found at:
http://ieee802.facetoface-events.com/plenary/

The goals for the November meeting are:

Complete comment review of D2.4.
Make a slight change to the Task Force objectives to align them with D2.4.
Obtain permission or conditional permission from IEEE 802.3 to begin Sponsor Ballot.

There are only a few comments but I will allocate one day to comment review be sure to go through them. In order to develop a draft agenda, requests for presentation time should be sent to David Cunningham (david_cunningham@agilent.com) by the end of Wednesday 9th November please include the following information:

- Name of presenter

- Title of presentation

- Length of time requested (this should include time for questions and answers)

- Brief description of topic

Presentation Procedure
For this meeting we will use the procedure developed by David Law
http://grouper.ieee.org/groups/802/3/aq/presentproc.html

Submissions received after the deadline, Wednesday 9th November 2005, will not be accepted for presentation at the meeting. Presenters please be sure to complete the PDF document information fields per the procedures for presenters, failure to do so may result in rejection of your presentation.

Regards,

David Cunningham
