Approved minutes
P802.3bs 200 Gb/s and 400 Gb/s Ethernet SMF Ad Hoc Teleconference 7 June 2016

Minutes taken by Pete Anslow, Ciena

The meeting started at 8:02 am Pacific chaired by Pete Anslow, the attendee list was taken from the Webex attendee list plus any e-mail notifications of attendance.

Documentation for the call can be found at the Ad Hoc web page:
http://www.ieee802.org/3/bs/public/adhoc/smf/index.shtml

Pete reminded everyone of the IEEE patent policy (http://www.ieee802.org/3/patent.html) and asked if anyone was unfamiliar with it. No one responded.

Pete asked if anyone had any objection or additions to the draft agenda. There was no response, so the agenda was approved by the Ad Hoc.

Pete asked if anyone had any corrections to the draft minutes from the 3 May 2016 call. No one responded, so these minutes were approved by the Ad Hoc.

Presentation #1
Title: 200GbE & 400GbE 2km & 10km Specifications Update Proposals
Presenter: Chris Cole, Finisar
See   cole_01_0616_smf

During the presentation, it was pointed out that some parameters shown as TBD did have values in the D1.4 version of the P802.3bs draft, so a corrected version was posted after the meeting as cole_01a_0616_smf. Pete asked whether there were any objections to the changes proposed in this presentation. No one objected.

John D'Ambrosia reminded the meeting participants to register and book a hotel if they intend to attend the P802.3bs June interim meeting in Piscataway.

Pete noted that the bandwidth for the combination of the O/E converter and the oscilloscope in 124.8.5 of P802.3bs D1.4 had been set at 0.75 x the signalling rate (38.68 GHz) and that while there had been some discussion of whether a value lower than this should be used, there was no agreement on an alternative value.

It was noted that there was one remaining SMF Ad Hoc call opportunity before the Piscataway meeting on 14 June at 8:00 am Pacific.

The meeting closed at 8:37 am Pacific.

Attendee list (taken from Webex attendee list plus e-mail notifications of attendance)

Anand Anandakumar, MaxLinear	David Malicoat, HP Enterprise
Pete Anslow, Ciena	Dale Murray, LightCounting
Abhijeet Ardey, Source Photonics	Gary Nicholl, Cisco
Chris Cole, Finisar	Vasu Parthasarathy, Broadcom
John D'Ambrosia, Futurewei (a subsidiary of Huawei)	Phong Pham, US Conec
	David Piehler, Dell
Piers Dawe, Mellanox	Rick Rabinovich, Ixia
Mike Dudek, QLogic	Jeff Rahn, Infinera
Ali Ghiasi, Ghiasi Quantum LLC	Salvatore Rotolo, STMicroelectronics
Akinori Hayakawa, Fujitsu	Dan Sparacin, Aurrion
Rita Horner, Synopsys	Peter Stassar, Huawei
Tao Hu, QLogic	Bharat Tailor, Semtech
Jeff Hutchins, Ranovus	Frederick Tang, Broadcom
Kenneth Jackson, Sumitomo	Martin White, Cavium
Greg LeCheminant, Keysight	Pavel Zivny, Tektronix
