Category	Page	Sub-clause	Line #	Comment	Proposed Change	Must Be Satisfied
Technical	148	126.5.3.2	3	Editor's note requires a decision for the document to be technically complete. Most straightforward implementation would be to use the same 0dB PBO and lower the injected disturber to keep the peak amplitude the same.	Delete editor's note, On P148 Line 19, change "2 dB PBO" to "0 dB PBO", On P148 Line 21, change "4 dB below" to "7 dB below", presentation to be provided	No
