Agenda and General Information

IEEE P802.3ch Multi-Gigabit Automotive Ethernet PHY Task Force

Steve Carlson, Chair

High Speed Design, Inc., Robert Bosch, Marvell
Long Beach, CA January 14 -16, 2019

Agenda

- Jon Lewis, Dell EMC – Recording Secretary Welcome and Introductions
- Approve Agenda
- Approve November 2018 Task Force Minutes and ad hoc call minutes
- Goals for this meeting
- Big Ticket Items
- Reflector and Web
- Ground Rules
- IEEE
  - Structure, Bylaws and Rules
  - Call for Patents
  - IEEE Standards Process
- Liaisons and Communications
- Review of Action Items from November Meeting
- Comment resolution – Monday and Tuesday
- Motions, Timeline, Action Items and Closing Business – Wednesday morning
- Future Meetings

Task Force Decorum

- An officer is permitted to make an audio or slideshow recording of this meeting exclusively for the purpose of generating minutes which shall not be copied or distributed. **IEEE 802.3 meetings do not use this option.** Recording of the proceedings by any other participant or observer, in part or in whole, via any means, is prohibited. (June 2018 IEEE-SA Standards Board Ops Manual 5.3.3.2)
- Press (i.e., anyone reporting publicly on this meeting) are to announce their presence (June 2018 IEEE-SA Standards Board Ops Manual 5.3.3.3)
- Cell phone ringers off
- Wear your badges at all times in meeting areas
  - Help the hotel security staff improve the general security of the meeting rooms
  - **PCs HAVE BEEN STOLEN** at previous meetings
  - **DO NOT** assume that meeting areas are secure
- Please observe proper decorum in meetings

Goals for the meeting

- Review Task Force Operation
- Comment resolution to D1.0a first TF review
- Identify missing sections of the draft
- Working Group ballot on D2.0 requires a technically complete draft

Big ticket items

- D1.0a review
- Create D1.1 first recirculation
- Move to a technically complete draft
- Remember---we are a contribution driven organization!

Reflector and Web

- To subscribe to the Multi-Gigabit Automotive Ethernet PHY reflector, send an email to:
  ListServ@ieee.org

  with the following in the body of the message (do not include "<>"):
  - *subscribe* **STDS-802-3-NGAUTO** *<yourfirstname> <yourlastname>*
  - *end*

- Send Multi-Gigabit Automotive Ethernet PHY reflector messages to:
  STDS-802-3-NGAUTO *@listserv.ieee.org*

- Task Force web page URL:
  http://www.ieee802.org/3/ch/index.html

Task Force Private Area

URL: **http://www.ieee802.org/3/ch/private/index.html**

- Username: 802.3ch
- Password: *****

- Write it down…

- Note - The draft, and any other content, is posted for your review only, and neither the content nor access information should be copied or redistributed to others in violation of document copyrights.
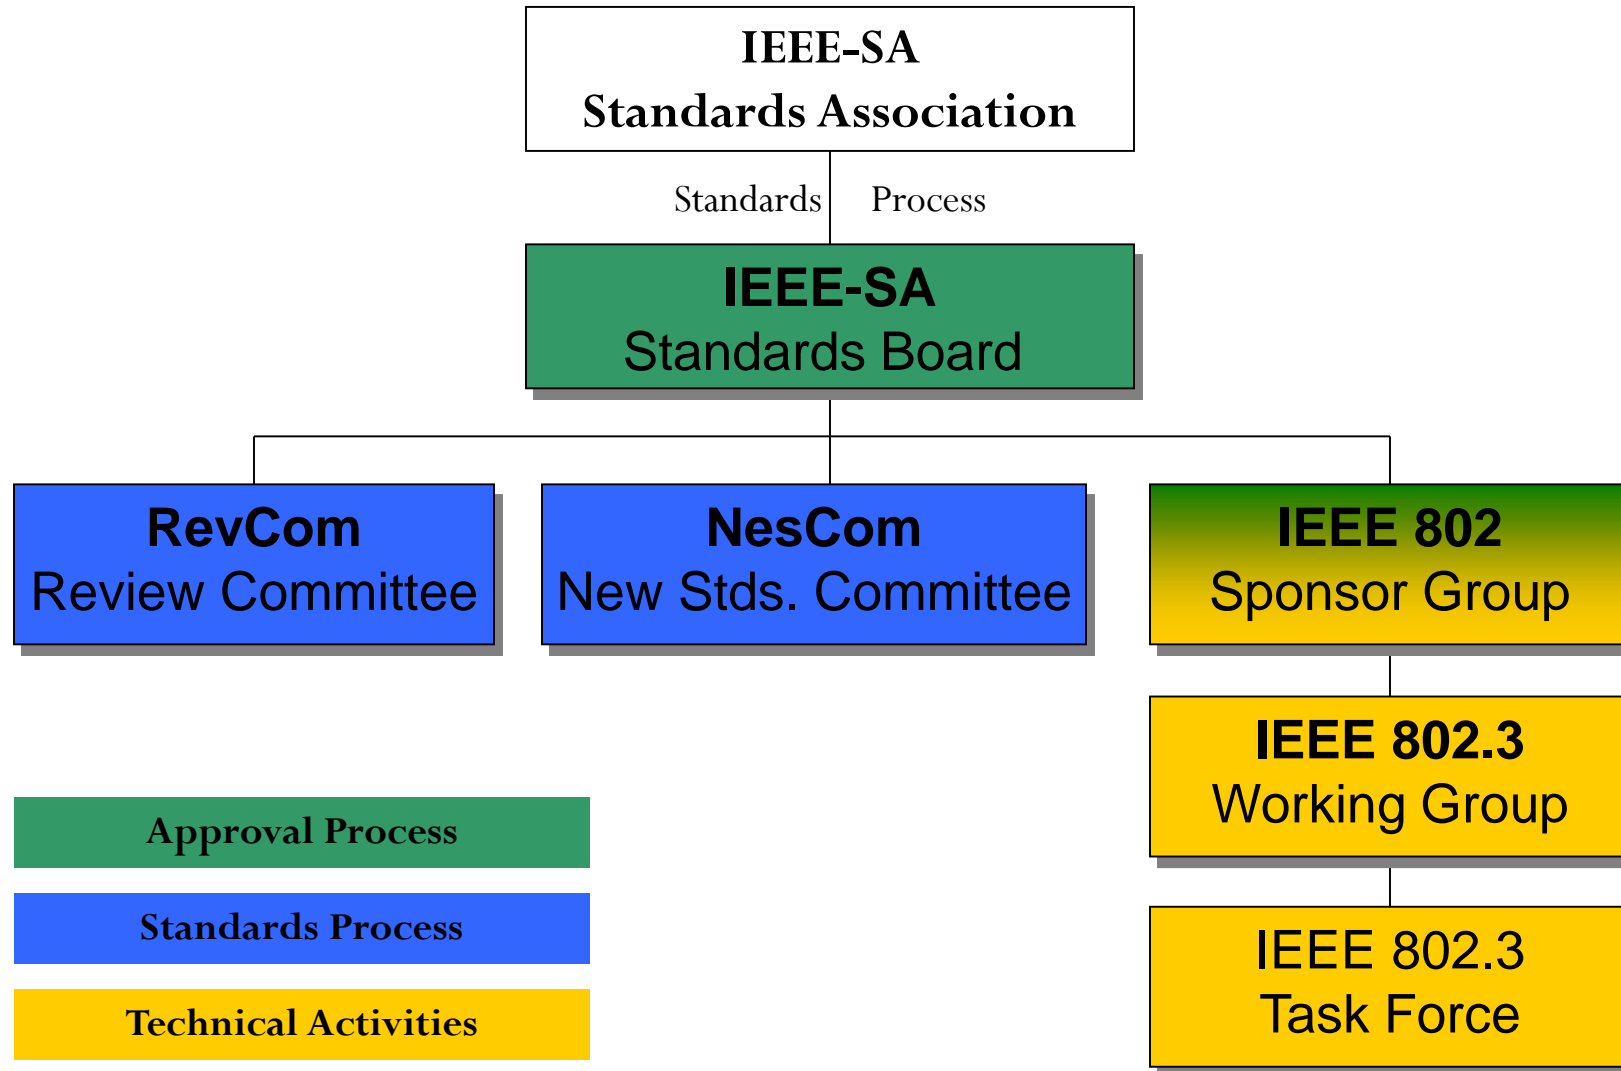

Ground Rules

- Based upon IEEE 802.3 Rules
  - Foundation based upon Robert's Rules of Order
  - Anyone in the room may speak
  - Anyone in the room may vote
- **RESPECT**… give it, get it
- NO product pitches
- NO corporate pitches
- NO prices!!!
  - This includes costs, ASPs, etc. no matter what the currency
- NO restrictive notices

Attendance

- Tutorial Material on attendance tool
  - http://ieee802.org/3/minutes/attendance_procedures.pdf

- Access details
  - URL: http://imat.ieee.org/ Please sign the paper attendance sheet

IEEE Structure

Important Bylaws and Rules

- **IEEE-SA Operations Manual**
  http://standards.ieee.org/develop/policies/sa_opman/

- **IEEE-SA Standards Board Bylaws**
  http://standards.ieee.org/develop/policies/bylaws/

- **IEEE-SA Standards Board Operations Manual**
  http://standards.ieee.org/develop/policies/opman/

- **IEEE 802 LAN/MAN Standards Committee (LMSC) Policies and Procedures**
  https://ieee.app.box.com/v/PandP-LMSC

- **IEEE 802 LAN/MAN Standards Committee (LMSC) Operations Manual**
  http://www.ieee802.org/devdocs.shtml

- **IEEE 802 LAN/MAN Standards Committee (LMSC) Working Group (WG) Policies and Procedures**
  http://www.ieee802.org/devdocs.shtml

- **IEEE 802.3 Working Group Operating Rules**
  http://ieee802.org/3/rules/P802_3_rules.pdf

Participants have a duty to inform the IEEE

- Participants <u>shall</u> inform the IEEE (or cause the IEEE to be informed) of the identity of each holder of any potential Essential Patent Claims of which they are personally aware if the claims are owned or controlled by the participant or the entity the participant is from, employed by, or otherwise represents

- Participants <u>should</u> inform the IEEE (or cause the IEEE to be informed) of the identity of any other holders of potential Essential Patent Claims

Early identification of holders of potential Essential Patent Claims is encouraged

IEEE

Ways to inform IEEE

- **Cause an LOA to be submitted to the IEEE-SA (patcom@ieee.org); or**

- **Provide the chair of this group with the identity of the holder(s) of any and all such claims as soon as possible; or**

- **Speak up now and respond to this Call for Potentially Essential Patents**

If anyone in this meeting is personally aware of the holder of any patent claims that are potentially essential to implementation of the proposed standard(s) under consideration by this group and that are not already the subject of an Accepted Letter of Assurance, please respond at this time by providing relevant information to the WG Chair

Other guidelines for IEEE WG meetings

- **All IEEE-SA standards meetings shall be conducted in compliance with all applicable laws, including antitrust and competition laws.**

  - **Don't discuss the interpretation, validity, or essentiality of patents/patent claims.**

  - **Don't discuss specific license rates, terms, or conditions.**

    - Relative costs of different technical approaches that include relative costs of patent licensing terms may be discussed in standards development meetings.

      - **Technical considerations remain the primary focus**

  - **Don't discuss or engage in the fixing of product prices, allocation of customers, or division of sales markets.**

  - **Don't discuss the status or substance of ongoing or threatened litigation.**

  - **Don't be silent if inappropriate topics are discussed … do formally object.**

  For more details, see *IEEE-SA Standards Board Operations Manual*, clause 5.3.10 and *Antitrust and Competition Policy: What You Need to Know* at http://standards.ieee.org/develop/policies/antitrust.pdf

◆IEEE

Patent-related information

The patent policy and the procedures used to execute that policy are documented in the:

- *IEEE-SA Standards Board Bylaws*
  (http://standards.ieee.org/develop/policies/bylaws/sect6-7.html#6)
- *IEEE-SA Standards Board Operations Manual*
  (http://standards.ieee.org/develop/policies/opman/sect6.html#6.3)

Material about the patent policy is available at
http://standards.ieee.org/about/sasb/patcom/materials.html

If you have questions, contact the IEEE-SA Standards Board Patent Committee Administrator at patcom@ieee.org

◆IEEE

Participation in IEEE 802 Meetings

Participation in any IEEE 802 meeting (Sponsor, Sponsor subgroup, Working Group, Working Group subgroup, etc.) is on an individual basis

- **Participants in the IEEE standards development individual process shall act based on their qualifications and experience. (https://standards.ieee.org/develop/policies/bylaws/sb_bylaws.pdf section 5.2.1)**

- **IEEE 802 Working Group membership is by individual; "Working Group members shall participate in the consensus process in a manner consistent with their professional expert opinion as individuals, and not as organizational representatives". (subclause 4.2.1 "Establishment", of the IEEE 802 LMSC Working Group Policies and Procedures)**

- **Participants have an obligation to act and vote as an individual and not under the direction of any other individual or group. A Participant's obligation to act and vote as an individual applies in all cases, regardless of any external commitments, agreements, contracts, or orders.**

- **Participants shall not direct the actions or votes of any other member of an IEEE 802 Working Group or retaliate against any other member for their actions or votes within IEEE 802 Working Group meetings, see https://standards.ieee.org/develop/policies/bylaws/sb_bylaws.pdf section 5.2.1.3 and the IEEE 802 LMSC Working Group Policies and Procedures, subclause 3.4.1 "Chair", list item x.**

By participating in IEEE 802 meetings, you accept these requirements. If you do not agree to these policies then you shall not participate.
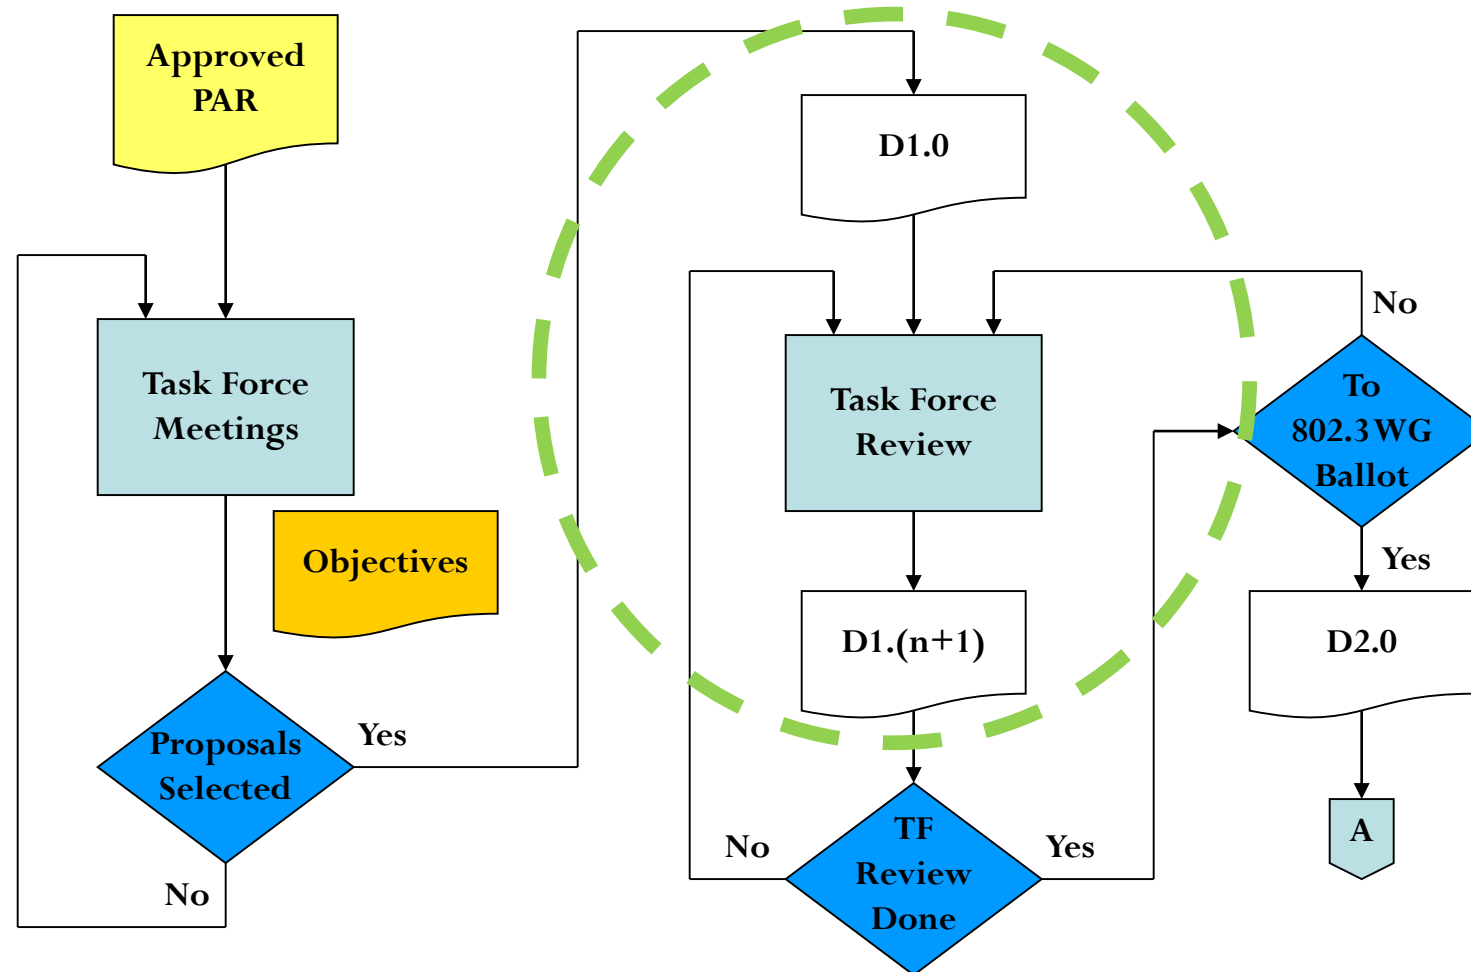

(Latest revision of IEEE 802 LMSC Working Group Policies and Procedures: http://www.ieee802.org/devdocs.shtml)

Overview of IEEE 802.3 Standards Process (1/5)- Study Group Phase

Note: At "Check Point", either the activity is ended, or there may be various options that would allow reconsideration of the approval.

IEEE P802.3ch NGAUTO Ethernet PHY Task Force

Approved Project Documents

- PAR
  - http://ieee802.org/3/ch/P802.3ch_PAR.pdf

- 5 Criteria
  - https://mentor.ieee.org/802-ec/dcn/17/ec-17-0069-00-ACSD-802-3ch.pdf

- Objectives
  - http://ieee802.org/3/ch/0317_approved_objectives_3NGAUTO.pdf

IEEE P802.3 P802.3ch NGAUTO Ethernet PHY Task Force Objectives

1. Preserve the IEEE 802.3/Ethernet frame format at the MAC client service interface

2. Preserve minimum and maximum frame size of the current IEEE 802.3 standard

3. Support full duplex operation only

4. Define optional startup procedure which enables the time from power_on=FALSE to a state capable of transmitting and receiving valid data to be less than 100ms

5. Support data rates of 2.5 Gb/s, 5 Gb/s and 10 Gb/s at the MAC/PLS service interface.

6. Support a BER better than or equal to 10^{-12} at the MAC/PLS service interface (or the frame loss ratio equivalent)

7. Support optional Auto-Negotiation

8. Support optional Energy Efficient Ethernet

9. Support operation in automotive environments (e.g., EMC, temperature)

10. Do not preclude meeting FCC and CISPR EMC requirements.

IEEE P802.3ch NGAUTO Ethernet PHY Task Force Objectives

11. Define the performance characteristics of an automotive link segment and an **electrical** PHY to support 2.5 Gb/s point-to-point operation over this link segment supporting up to four inline connectors for at least 15m on at least one type of automotive cabling (e.g., UTP, STQ, STP, SPP, Coax, or Twinax).

12. Define the performance characteristics of an automotive link segment and an electrical PHY to support 5 Gb/s point-to-point operation over this link segment supporting up to four inline connectors for at least 15m on at least one type of automotive cabling.

IEEE P802.3 P802.3ch NGAUTO Ethernet PHY Task Force Objectives

13. Define the performance characteristics of an automotive link segment and an electrical PHY to support 10 Gb/s point-to-point operation over this link segment supporting up to four inline connectors for at least 15m on at least one type of automotive cabling.

14. Support optional Clause 104 power over data lines on appropriate media.

Presentation Issues

- Filenames
  - Some problems
  - Revision

- Templates
  - Please make the title and author field selectable

- PDF properties
  - Please fill these fields out to aid the search engine

- Confidentiality Statements
  - No problems
  - Applies to presentations and emails

- Discussion of Cost
  - No issues

Presentation Issues

- Material from other presentations
  - If you use material from another presentation, it must be properly attributed
  - Use the filename
- Material from outside sources
  - Make sure you have permission and indicate that on the slide

Presentations

- [Ad Hoc Report](#)

- [Opening Editor's Report](#)
  - D1.0a comment resolution
  - Presentations in support of comments will be given when that comment is under discussion

- [Asymmetric Framework](#)
  - William Lo, Axonne, Inc.

- [EEE OAM and Alert](#)
  - Saied Benyamin, Aquantia

- [MDI return loss considerations](#)
  - German Feyh, Broadcom Ltd.

Presentations

- <u>Closing Editor's Report</u>
  - D1.0a comment resolution results
  - Action items and homework for D1.1
- Comment Issues and Guidelines
- <u>Path to WG Ballot</u>
- Possible OOC Interim April 16-17 in Warren, MI

Motions and Straw Polls

- – Please see meeting minutes

Action Items

- Please see comment database and meeting minutes

Possible OOC Interim

- To meet our goal of starting WG ballot on D2.0 out of the May interim, it's likely that we'll need an additional in-person TF meeting in April

- April 16 -17 meets the timeline to allow for a 30-day notice to be given at the March plenary and still give the editorial team time to create the preview draft for WG pre-submission

- Natalie has offered to host at GM in warren, MI

- This is a heads-up only---we will make the decision to meet in April at the March plenary

Future Meetings

- See: http://www.ieee802.org/3/interims/index.html

- March 2019 802 Plenary
  - Hotel Vancouver
  - March 11 - 14
  - Vancouver, BC, Canada
- May 2019 802.3 Interim
  - Sheraton Salt Lake City
  - May 20 – 24
  - Salt Lake City, UT, USA

- Anyone interested in hosting a interim meeting contact the IEEE 802.3 Executive Secretary Steve Carlson.

Straw Poll on Attendance

- Attend March 2019 802 Plenary, Vancouver, BC, Canada:
    - Y: N: M:

- Attend May 2019 interim, Ethernet Alliance, Salt Lake City, UT, USA
    - Y: N: M:

Questions?

Thank you!
