Subject: Liaison reply to China NB comment on the IEEE Std 802.3.1-2013 pre-ballot

Approval: Agreed to at IEEE 802.3 Plenary meeting, San Antonio, TX [date]

Dear ISO/IEC JTC1 SC 6 Secretariat,

IEEE 802.3 would like to thank China NB for their review and comment on the submission of IEEE Std 802.3.1-2013 for adoption by ISO/IEC JTC 1/SC 6.

IEEE Std 802.3.1-2013 is the layered management component of the data communications layered system specified by IEEE Std 802.3-2012. As such, the management specified by this document is limited to and matched to the functionality specified in IEEE Std 802.3. It is agnostic to and independent of the management of other functions or layers in the protocol stack.

Sincerely,
David Law
Chair, IEEE 802.3 Ethernet Working Group
