8	802-3/802.3 REVISION REQUEST 1090
+==	+
DAME •	December 07 2001
DATE:	December 07, 2001 Shimon Muller
	Sun Microsystems Inc.
E-MAIL:	shimon.muller@sun.com
	bilimoir.mallelebair.com
REQUESTED REVISION:	
STANDARD:	IEEE Standard 802.3, 2000 Edition
CLAUSE NUMBER:	35
CLAUSE TITLE:	Reconciliation Sublayer (RS) and Gigabit Media
	Independent Interface (GMII)
DDODOGED DELITATION ME	vm.
PROPOSED REVISION TEX	
See IEEE P802.3aj dra	alt.
RATIONALE FOR REVISION	ON:
	pes into great detail in describing how the switching
	ered to local clock references should be done between
received frames. Howe	ever, since the GMII is defined for continuous
	ly, none of these complications are necessary.
	rements in this subclause unnecessarily constrain
implementations.	
	glavae was sarried over from slavae 22 (MII) which
The text in this sub	clause was carried over from clause 22 (MII) which
The text in this sub- also supported 10Mb/s	s implementations and was therefore required. This
The text in this sub- also supported 10Mb/s problem was discovere	,
The text in this sub- also supported 10Mb/s problem was discovere revision request prop	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with
The text in this sub- also supported 10Mb/s problem was discovere revision request prop	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with
The text in this sub- also supported 10Mb/s problem was discovered revision request prop text similar to that	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46.
The text in this sub- also supported 10Mb/s problem was discovered revision request propertext similar to that	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46.
The text in this sub- also supported 10Mb/s problem was discovered revision request propertext similar to that	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46.
The text in this sub- also supported 10Mb/s problem was discovered revision request propertext similar to that	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46.
The text in this sub- also supported 10Mb/s problem was discovered	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46.
The text in this sub- also supported 10Mb/s problem was discovered revision request prop text similar to that IMPACT ON EXISTING NOTE None.	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46. ETWORKS:
The text in this sub- also supported 10Mb/s problem was discovered revision request prop text similar to that IMPACT ON EXISTING NOTE None.	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46.
The text in this sub- also supported 10Mb/s problem was discovered revision request prop text similar to that IMPACT ON EXISTING NOTE None. Please attach supports Submit to:- Bob Green	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46. ETWORKS:
The text in this subsalso supported 10Mb/sproblem was discovered revision request properties to that IMPACT ON EXISTING NUMBER None. Please attach supports to:- Bob Ground Submit to:- Bob Ground Supports to:- Bob Groun	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46. ETWORKS: orting material, if any ow, Chair IEEE 802.3
The text in this subsalso supported 10Mb/sproblem was discovered revision request properties to that IMPACT ON EXISTING NUMBER OF THE PLEASE attach supports of the properties of the propertie	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46. ETWORKS: orting material, if any ow, Chair IEEE 802.3
The text in this subsalso supported 10Mb/sproblem was discovered revision request properties to that IMPACT ON EXISTING Note to the support of the support	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46. ETWORKS: orting material, if any ow, Chair IEEE 802.3 : Bob.Grow@intel.com
The text in this subsalso supported 10Mb/sproblem was discovered revision request properties to that IMPACT ON EXISTING NUMBER OF Submit to:- Bob Green E-Mail REV 1	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46. ETWORKS: Orting material, if any ow, Chair IEEE 802.3 : Bob.Grow@intel.com
The text in this subsalso supported 10Mb/sproblem was discovered revision request properties to that IMPACT ON EXISTING NUMBER OF Submit to:- Bob Green E-Mail	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46. ETWORKS: Orting material, if any ow, Chair IEEE 802.3 : Bob.Grow@intel.com
The text in this subsalso supported 10Mb/s problem was discovered revision request properties to that IMPACT ON EXISTING NUMBER OF Submit to:- Bob Grown E-Mail Please attach supported E-Mail REV DATE EDITE ACCES	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46. ETWORKS: Orting material, if any ow, Chair IEEE 802.3 : Bob.Grow@intel.com For official 802.3 use
The text in this subsalso supported 10Mb/s problem was discovered revision request properties to that IMPACT ON EXISTING Note to the support of the support	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46. ETWORKS: Orting material, if any ow, Chair IEEE 802.3 : Bob.Grow@intel.com For official 802.3 use+ REQ NUMBER: 1090 RECEIVED: December 07, 2001 ORIAL/TECHNICAL PTED/DENIED OT REQ'D YES/NO
The text in this subsalso supported 10Mb/s problem was discovered revision request properties to that IMPACT ON EXISTING Note to the support of the support	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46. ETWORKS: Orting material, if any ow, Chair IEEE 802.3 : Bob.Grow@intel.com For official 802.3 use
The text in this subsalso supported 10Mb/sproblem was discovered revision request properties to that IMPACT ON EXISTING NUMBER OF The Submit to:- Bob Grown E-Mail Please attach supported E-Mail	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46. ETWORKS: Orting material, if any ow, Chair IEEE 802.3 : Bob.Grow@intel.com For official 802.3 use
The text in this substals supported 10Mb/sproblem was discovered revision request properties to that IMPACT ON EXISTING NUMBER OF Submit to:- Bob Grows E-Mail E-Mail REV DATE EDITO BALLO COMMIT EDITO COMMIT EDITO E-Mail E-	s implementations and was therefore required. This ed during the Task Force Ballot for P802.3ae. This poses to replace the contents of this subclause with of clause 46. ETWORKS: Orting material, if any ow, Chair IEEE 802.3 : Bob.Grow@intel.com For official 802.3 use+ REQ NUMBER: 1090 RECEIVED: December 07, 2001 ORIAL/TECHNICAL PTED/DENIED OT REQ'D YES/NO
