EQUESTED REVISION:	
STANDARD:	IEEE Std 802.3-2012
CLAUSE NUMBER:	
CLAUSE TITLE:	66B/64B Decode
OPOSED REVISION TE	XT:
ee 49.2.11 Receive	process. The decoder shall perform functions
pecified in the sta	te diagram shown in Figure 49-15.
nould be changed to	:
o 49 2 11 Pogoiro	process. The decoder shall perform functions
	te diagram shown in Figure 49-17.
lause 49 was Figure pdated the figure n	ON: as originally published, the correct reference in 49-15. Subsequent revisions of the Standard have umbers in Clause 49, but not in Clause 76. The intent Receive state diagram, which is currently in Figure
hen IEEE 802.3av wa lause 49 was Figure pdated the figure n as to point to the	as originally published, the correct reference in 49-15. Subsequent revisions of the Standard have umbers in Clause 49, but not in Clause 76. The intent Receive state diagram, which is currently in Figure
nen IEEE 802.3av wa lause 49 was Figure odated the figure na as to point to the 9-17.	as originally published, the correct reference in 49-15. Subsequent revisions of the Standard have umbers in Clause 49, but not in Clause 76. The intent Receive state diagram, which is currently in Figure
nen IEEE 802.3av wa lause 49 was Figure odated the figure n as to point to the 9-17. MPACT ON EXISTING N	as originally published, the correct reference in 49-15. Subsequent revisions of the Standard have umbers in Clause 49, but not in Clause 76. The intent Receive state diagram, which is currently in Figure METWORKS:
nen IEEE 802.3av wa lause 49 was Figure odated the figure nas to point to the 0-17. MPACT ON EXISTING N	as originally published, the correct reference in 49-15. Subsequent revisions of the Standard have umbers in Clause 49, but not in Clause 76. The intent Receive state diagram, which is currently in Figure
