

Residential Ethernet Study Group
Opening Plenary
IEEE 802.3
San Francisco, CA
July 18, 2005

Alexei Beliaev, Gibson Labs
ieee802@brainpot.com
(acting for Michael J. Teener, RESG chair)

Progress for this week

- Continue to work on a way to get the objectives met within the 802 environment (i.e., how to work with 802.1 and 802.3, and maybe the wireless groups)
- Continue to work on “consensus solution”
 - possibly 99% in 802.1
 - little or no changes in 802.1
- 8 presentations addressing the Objectives
- Better report at closing

RESG meeting information
