

Call for Interest

Opening Plenary Report

“Distinguished minimum latency traffic in
a converged traffic environment”

IEEE 802.3 Plenary, CFI
November, 12, 2012
San Antonio, TX

Objectives for the meeting

- The success of Ethernet in time-sensitive markets can be improved by mechanisms that allow to have several distinct behaviors be served on one network without violating the minimum latency behavior.
- This Call for Interest will request the formation of a study group to explore the market requirements and technical approaches with the primary objective to fulfill the requirements of **Distinguished minimum latency traffic in a converged traffic environment.**

Logistics

- CFI information posted at page http://www.ieee802.org/3/cfi/request_1112_1.html with a link to the presentation - the presentation itself can be found at the link http://www.ieee802.org/3/cfi/1112_1/CFI_01_1112.pdf.
- Consensus building presentation
 - Tuesday, Nov. 13, 2012
 - 6:00PM to 7:30PM
 - Room: **Texas E**
- 802.3 WG Vote on creation of the Study Group will take place on Thursday during the closing plenary meeting.
