

IEEE Std PC37.115 Development

Subcommittee H, Working Group H4

Wednesday, January 9, 2002

Time: 0930 - 1045

Dana Point, CA

Chair:	Dennis Holstein	Vice-Chair	John Tengdin
Secretary:	Eric Udren		

This standard will define standard communication modeling, terminology, evaluation criteria and performance measures for test scenarios, which specify messages to be exchanged between electrical power substation intelligent electronic devices (IEDs). Use case scenarios will define message transactions between applications within the substation, and between substation IEDs and remotely located applications. The scenarios **will not** specify the communication protocol required to implement the transactions.

----- Agenda Topics -----

Introductions/Sign-in & Admin. Remarks	Holstein	5
Minutes from Last Meeting	Holstein	5
Project Schedule – Ballot results	Holstein	10
Resolution of Action Items	Holstein	5
Ballot Resolution Discussion	Members	35
New Business	Members	5
Review Action Items	Secretary	5
Next Steps & Next Meeting	Holstein	5

Other Information

EMAIL Exploder

To subscribe: Send message to majordomo@majordomo.ieee.org, in the subject type: subscribe, and in the body type: SUBSCRIBE pc37-115. Successful subscription will return a notification describing all options for subscribing and unsubscribing, who is on the list, and retrieving the general information about pc37-115. If you have problems send an EMAIL to holsteindk@aol.com, I will place you on the list.

To send a message: Send to pc37-115@majordomo.ieee.org, the message will be sent to all subscribers.

Web Site

Use the IEEE Standards Working Group Area:

<http://grouper.ieee.org/groups/>, the select hot link to Web site and then select index of groups – C37.115.

Or, for direct Web connection use:

<http://grouper.ieee.org/groups/c37/115/>.

Access to the private area requires password. You must be a member of H4 to get the password. If you are a member, request the password from Dennis Holstein.

To place documents on the Web site follow the following instruction: You cannot upload a document directly. Send your file to holsteindk@aol.com and I will upload the document to the folder and update the document list. You should send an announcement message to pc37-115@majordomo.ieee.org to notify the subscribers that your document is on the Web site.

Current Web folders:

H5 Report contains public folder applications developed by H5, which are used by H4 to build-out the communication transaction sequence.

Correspondence contains general correspondence regarding the business of H4.

Meetings contain information regarding each meeting including agenda, minutes and attendees at the meeting.

Private (requires password) contains draft version of STD C37.115.

UserID: wgc37.115
