Monday September 24th, 2007
3:30 pm – 4:00 pm
Sheraton Hotel – New Orleans, Louisiana

Attendees:

Name	Affiliation	E-mail
Chris Melhorn	EPRI	cmelhorn@epri.com
Mark Stephens	EPRI	mstephens@epri.com
Chuck Thomas	EPRI	cthomas@epri.com
Bill Brumsickle	SST	bbrumsickle@softswitch.com
Elliot Rappaport	Electro Technology	
Jim Rossman	TVA	jbrossman@tva.gov

1.0 Call to Order

2.0 Introduction of Members and Guests.

3.0 May 7 Edmonton Meeting Minutes were approved.

4.0 Working Group Reports

4.1 Emerald. Elliot discussed latest work to move everything related to grounding into one document. We need to make sure that all the parts in the Emerald book are moved to technical books coordinating committee.

4.1.1 Action Item Elliot needs a list of working group with e-mails.

4.2 Harmonics Working Group. There is no report on this one.

4.3 P1668 - 1668 Working Group “Recommended Practice for Voltage Sag and Interruption Ride-Through Testing for End Use Electrical Equipment Less than 1,000 Volts”. (hold until end of session)

4.4 Old Business Review

4.4.1 Chris See your notes and old business key points

4.5 Call for Papers

4.5.1 P1668 home may reside in the special power system design.

4.5.2 Mark Stephens Presentation

4.5.2.1 Abstracts are due for I&CPS for November 1st

5.0 Old Business

5.1 Three volunteers were requested to review the paper “Noise Reduction in industrial control cabinets (the new industrial cabinet in the IEEE Emerald book).” Mark Stephens of EPRI volunteered to help review the paper.

6.0 New Papers

6.1 Mark Stephens offered a paper to describe the effect of voltage sag testing methods on equipment ride-through.

7.0 Coordination Liason Reports

7.1 1346 – Is up for renewal in two years. This standard is a system compatibility standard with cost payback economic justification. The standard is sponsored by PES under the distribution subcommittee. Previously it was co hosted by IAS and PES. The standard has been re-affirmed for another two years.

8.0 Adjourn
