

IEEE Distribution Subcommittee
Vice Chair Report
January 12, 2011

Between July 2010 and January 2011, the subcommittee has been assigned a total of 17 transactions grade papers and 1 PES Letter to review. Of these, 10 were new papers and 7 were revisions. This is down significantly over the same period last year. The web site for the process is located at:
<http://mc.manuscriptcentral.com/tpwrp-pes> .

Next week there is the ISGT Conference. This Smart Grid conference is being held in Anaheim, CA. Cheri and I have tried to get the JTCM and the ISGT to meet concurrently, but without any success. As some of our groups are involved with Smart Grid, it makes sense that they should meet in the same location.

Submitted by John McDaniel, IEEE Distribution Subcommittee Vice Chair.
