

Enhance your **IEEE Transformers Committee** experience with [IEEE EventHub](#), available for iOS and Android devices. IEEE EventHub is your mobile guide to IEEE events and conferences:

- Keep up to date with the latest schedules, sessions, and speakers.
- Customize your agenda and add events to your calendar to tailor your **IEEE Transformers Committee** experience.
- Curate a list of speakers, sessions, and exhibits.
- Take and store notes on sessions, speakers, and exhibits.
- See who else is attending the same events you are.
- Easy access to venue, transportation information, and local sights and stops.
- Real-time notifications delivered during **IEEE Transformers Committee**.

## How to Download

### QR Code

Using your mobile device, simply scan the QR code above\* and your phone will open up a link in your phone's browser to take you to either the App Store or Play Store.

\* Android devices may not have an integrated QR code scanner. You may have to download a separate QR scanning app before you are able to scan the code above.

### App/Play Store

Simply search "IEEE EventHub" on either the App Store or Play Store!

### Link

Using your mobile device's browser, navigate to <http://l.ead.me/bb3b6W> that will provide buttons that will navigate you to either the App Store or Play Store.

### Login

You must login with your IEEE account credentials to see the available events. If you do not have an IEEE Login, you can create a free login. This would be applicable to other attendees such as traveling companions.
