

IEEE 1149.4 Mixed-Signal Test Bus Working Group Meeting Minutes

for

April 16th, 2008
8:00 – 9:00 AM PDT

Meeting Agenda:

Time	Topic	Responsibility
8:00 – 9:00 AM	1. Review meeting minutes for April 8 th , 2008	All
	2. Review standard draft	All
	3. Update on ABSDL parser development	All
	4. Other issues.	All
9:00 AM	Meeting adjourned	Bambang

Meeting Attendees:

Name	Company
Adam Cron	Synopsys
Ken Parker	Agilent Technologies
Bruce Kim	University of Alabama
Steve Sunter	Logicvision
Bambang Suparjo	Mentor Graphics

1. Review meeting minutes for April 8th, 2008.

The meeting minutes for April 8th, 2008 have been approved, suggested by Adam Cron and seconded by Steve.

2. Review Standard Draft (version D7)

a. Issue on Rcom

i. The updated text in clause 9.3.2 has been reviewed and accepted.

ii. Review on 10.3.2.

- Remove R3 from Table 13 because R3 is no longer part of Rcom. The ABM below R3 row needs to be removed as well.
- The value of R3 should follow the value allowed in the AT1/AB1 path. This note should be included in the text.

- In Figure 53, move ABM that associated to F8 close to node 3. This will allow the teaching of external measurement accuracy affected by the value of R6. R6 is now part of Rcom and the value needs to be documented. Adam Cron will propose the range of R6 value in Table 13.

b. Scope and purpose

The scope and purpose based on PAR application need to be included in the documentation - Bambang provided the letter regarding the suggestion from NesCom. The scope will be inserted in 1.3 and the purpose will be inserted in 1.3.1.

3. Update on ABSDL parser development

Heiko already fixed the bug in the parser. Now the parser can recognize differential application as an option.

4. Other issues

The next teleconference will be set after reviewing the updated draft.

5. The meeting adjourned at 9:00 AM PDT
