

## 1450.4 meeting minutes – 02/11/14

**Attendees:** Ernie Wahl, Jim O'Reilly, Ric Dokken (Rogueviation), Hau Lam (TSSI), Brian Johnston (TSSI)

**Not present:** Markus Seuring, Mitsuo Fujii, Julia DiChiaro, Oleg Erlich, Ajay Khoche, Paul Reuter

### **Agenda:**

#### **Current Focus:**

- Presentation by Ric Dokken of Rogueviation of his company's Rhythm STIL-based toolset

#### **Summary:**

- Binning showed softbindefs.
- Do not show port expression names (PORTLABEL) in tool – doesn't mean anything to Rhythm.
  - Question – what is the purpose of PORTLABEL?
- TestNumber – Rhythm shows in flow node, STIL would have that in Test. Need to understand the reasons for the difference and resolve.
- Does not define objects before use (TestType, FlowType) – creates all objects inline.
- Comments:
  - Ernie's comments:
    - Perspective - good to have a fresh set of eyes looking at this.
    - Looking for someone to point out weaknesses.
  - Ric:
    - On the right track – language is very useful.

#### **Action Items:**

Jim: research questions and publish resolution

#### **Reference documents** (If logged into your google account, can edit. If not, can only view.)
