- Chris Nelson has provided us with Intel's needs/requirements for multi-site test. The .4 WG will review this document and give feedback to Chris. Dave Dowding will distribute the document, and we'll discuss it at the next meeting. Please review the document before the call and be prepared to offer comments on it.
- Dave and Ernie to put the finishing touches on the conceptual model documents. They expect to have it complete within two weeks (hopefully by next week).
