P1450.4 meeting minutes - 03/23/05

Attendees: Dave Dowding, Jim O'Reilly, Ernie Wahl, Tony Taylor, Bob Roberts, Jose Santiago

Not present: Tom Micek, Doug Sprague, Yuhai Ma, Eric Nguyen, Dan Fan, Oscar Rodriguez, Chris Nelson, Jim Mosley, Don Organ

Summary:
- STIL P1450.4 WG information is now available at the IEEE STIL web site (http://grouper.ieee.org/groups/1450/dot4/index.html). This site includes recent meeting minutes and other documents (Tony Taylor and Don Organ are in the process of transferring the information from the Inovys web site previously maintained by Don Organ to the IEEE STIL .4 web site).
- Jose Santiago: STIL survey complete – responses being collated. Will be available soon. Responses from US, Europe, Asia, Japan.
- Tony Taylor: P1500 approved. P1450.1 (and P1450.6?) WGs to propose reballoting on those standards.
- Next week, there will be meetings at STC that several members will be attending. Therefore, our regular Wednesday WG meeting will be cancelled next week, and will resume the following week.
- Discussion about Ernie's translation of the Inovys Stylus example. This translation was done primarily based on the D13 draft of the language spec; but contains some modifications intended to help reconcile the features of the D11 draft. See the STIL .4 website for copies of each of those documents. Ernie provided a walk-through of the document, fielding questions along the way.

Actions:
- Jim O'Reilly: Complete draft of defaults for various objects (TestNode, TestMethod, and TestObject).
- Entire WG: Continue to review Ernie's translation of the Stylus example. Send questions or comments to Ernie.
