

## **P1450.4 meeting minutes - 07/14/04**

Attendees: Tom Micek, Jim O'Reilly, Ernie Wahl, Don Organ, Oscar Rodriguez, Jose Santiago

Not present: Dan Fan, Tony Taylor, Jim Mosley, Dave Dowding, Eric Nguyen, Doug Sprague, Yuhai Ma

### **Agenda:**

- Status of syntax subgroup efforts
- Status of conceptual model subgroup efforts
- Status of STIL User's Group

### **Status of syntax subgroup efforts:**

No activity. Ernie has reviewed Jim O's STIL-EBNF normalization of Ernie's (partial) proposed syntax. Comments fed back to Jim; those have been incorporated into the document, which has been redistributed (as of Wed. afternoon, 7/14/04).

### **Status of conceptual model subgroup efforts:**

No activity. Current status (as of a few weeks ago) is that Dave and Ernie were working on fleshing out bin map, bin definitions issues. This will (hopefully) continue now that Ernie is back from vacation and that Dave has completed his ITC paper.

**STIL User's Group report (Tom Micek):** Tom discussed the most recent activities of the STIL User's Group. John Cosley of Source 3 has agreed to host (at least for the short term) a STIL User's Group website. See meeting minutes and other information at <http://www.stil-standard.org>. Much of the remainder of the hour was spent discussing issues related to the STIL User's group.
