INTERNATIONAL ELECTROTECHNICAL COMMISSION

TECHNICAL COMMITTEE TC 100: AUDIO, VIDEO AND MULTIMEDIA SYSTEMS AND EQUIPMENT **TECHNICAL AREA 4: Digital system interfaces and protocols**

Liaison letter regarding the collaboration between IEEE 1722/IEEE 1722a and IEC 61883-1, 2, 3, 4, 5, 6, 7, 8

To: Mr. Dave Olson (IEEE 1722a Chairman)

Dear Mr. Dave Olson,

IEC TC 100/TA 4 understands increasing importance of IEEE 1722 series in the network data transmission area including in home and in vehicle, and IEEE 1722 refers to IEC 61883 series. The recent maintenance works of IEC 61883-6 and IEC 61883-8 affected IEEE 1722 with no formal liaison established.

The legacy digital interfaces, IEC 60958 series and IEC 61937 series can be transmitted through IEC 61883-6 as IEC 60958 conformant data format, and IEC 61883-6 can be transmitted through IEEE 1722. This means that all legacies are transmitted through IEEE 1722 to the network.

IEC TC 100/TA 4 understands that it is timely and appropriate to start official communication and discussion on these projects more closely. Also, we are pleased to nominate a liaison officer as follows:

Liaison officer between IEEE 1722a and IEC TC 100/TA 4 in both-directional:

Mr. Junichi Yoshio (Project Leader and expert of IEC 61883, IEC 60958 and IEC 61937 series)

Email: jy@post.pioneer.co.jp

IEC TC 100/TA 4 looks forward to any potential collaboration on these projects.
Your kind acceptance would be highly appreciated.

With best regards,

Kwang-Soon Choi
Technical Secretary of IEC TC 100/TA 4

Tadashi Ezaki
Secretary of IEC TC 100

CC: Mr. David Felland (IEC TC 100 Chairman)
Mr. Hiroyuki Iga (IEC TC 100 Assistant Secretary)
Mr. Jae-Young Lee (IEC TC 100/TA 4 Technical Area Manager)
Mr. Junichi Yoshio (IEC TC 100/AGS Study Session 5, TA 11 Technical Area Manager, TA 4 PLs)
Mr. Matei Cocimarov (IEC Central Office)
