IEEE 1722b – Possible Work Items – as of 5/31/19

- Add support for:
  - MIPI CSI2/DSI2 (video)
    - Gordon Bechtel, Bechtech; Roy Myers, Ethernovia; Don Pannell, NXP
    - http://grouper.ieee.org/groups/1722/1/contributions/2018/1722_csi2FormatCallForInterest-Bechtech-2018-12-04.pdf
  - Audio over WiFi (redundant audio)
    - Ashley Butterworth, Apple
      - http://grouper.ieee.org/groups/1722/contributions/2017 /Butterworth_AVTP_TRAF.pdf
  - H.265 (video)
    - Frank Baehren, Intel; Kieran Tyrrell, Sienda; & Ashley Butterworth, Apple
      - http://grouper.ieee.org/groups/1722/contributions/2017 /Butterworth_AVTP_HVEC.pdf
  - Improve Clock Reference Stream Format
    - Frank Baehren, Intel

IEEE 1722b – Possible Work Items – Page 2

- Add support for:
  - gPTP GM Identity
    - Ashley Butterworth, Apple
  - Expand avtp_timestamp to a full 64-bits of nanoseconds
    - Ashley Butterworth, Apple
  - Radar Object Data
    - Don Pannell, NXP

- Update the doc (where needed) for:
  - 802.1AS-2019 (aka., 802.1AS-Rev)
  - Move support for MAAP to 802.1's OmniRAN Task Group? They appear interested.
    - Would need to allocate a range of EtherType SubTypes for their use in our doc
    - Would need to make sure 1722's OUI & EtherType are registered to IEEE
