

IEEE 1722 Layer 2 Transport Protocol Working group for Time-Sensitive Streams

15 Dec 2023

Peter Lefkin, Executive Director
MIPI Alliance Camera Working Group
MIPI Alliance
www.mipi.org

Dear Peter,

The following IEEE Standard draft is being submitted by

the IEEE 1722 Layer 2 Transport Protocol Working group for Time-Sensitive Streams (hereinafter IEEE Working Group)

to

the MIPI Alliance Camera Working Group (hereinafter “**Organization**”)

for coordination with

the MIPI Alliance (hereinafter “**Organization Group**”)

IEEE P1722b
Draft Working Group 2, Clause 18
IEEE Std 1722 P1722b-Amendment of IEEE Std-2016

IEEE is providing access to this IEEE Standards draft for the following purpose:

- ☒ Request for comments from individual participants/reviewers from **Organization Group**
- ☒ Technical coordination between **IEEE Standards Working Group** and **Organization Group** until no **date** or completion of the project
- ☐ Education during regulatory consideration for <Regulatory Body> until **date** or completion of the project

This IEEE Standards draft is copyrighted by IEEE. All rights reserved. This cover page shall remain as the first page of the IEEE Standards draft and may not be modified or deleted.

Terms: This copy is provided solely to individual participants of **Organization Group**. Each individual participant or individual reviewer from entity members (where applicable) of **Organization Group** may download one (1) copy of this draft for review within the **Organization Group**. Neither participants of **Organization Group** nor **Organization** may use this draft for any other purposes, including, but not limited to, modifying, excerpting, selling, or further distributing the draft, without permission from the IEEE Standards Department (stds-ipr@ieee.org). Access to the IEEE Standards draft will be terminated after the specified period noted above, unless noted otherwise.

Contributions: All comments on or submissions to this IEEE Standards draft are contributions to IEEE-SA and are subject to the IEEE-SA Copyright Policy (standards.ieee.org/develop/policies/). Individual participants or reviewers who submit contributions also have the responsibility to inform IEEE of owners of potentially Essential Patent Claims of which they are aware.
