IEEE 1904 ANWG 1904.2 TF Opening Report

29 February – 4 March 2016
Teleconference

Chair: Lu Yang, RITT
Editor: Raziel Gabe, PMC Sierra

Backgrounds

- TF Activities were suspended since April 2015, waiting for the requirements to be further clarified

- In last F2F meeting, WG decided to bring the project out of hibernation

- ❑ The project will focus only on message format and processing at intermediate and end nodes
  - Discovery mechanism deferred
  - Encryption removed
- ❑ We have got most of the materials of the draft to cover the new scope
- ❑ Revised PAR file should be submitted
  - Clarity what devices can be managed
  - Remove encryption capabilities

Plan for the meeting

❑ Review the current document

❑ Discuss the follow-up work

Thank You
