IEEE 1904 ANWG
1904.3 TF Opening Report

December 15-17, 2015
Chair: Jouni Korhonen, BRCM
Co-chair: Liquan Yuan, ZTE
Editor: Richard Maiden, Altera

Open AIs

❑ OPEN Shijia Ma: write a proposal how to handle silent suppression.

❑ OPEN Shijia Ma: write a proposal on handling sequence numbers and timestamps. How to detect packet loss in a case of timestamps.

❑ OPEN Jinri Huang: Manageability of RoE endpoints, alarms, etc.

❑ OPEN Jouni: ask permission to distribute NGFI slides used in ComSoc/SDB.

Summary of intermediate telcos

❑ Three telcos held.

❑ Telco on 10/27/15:
  – Notes: f2f

❑ Telco on 11/10/15:
  – Notes: http://www.ieee1904.org/3/email/msg00315.html

❑ Telco on 11/24/15:
  – Notes: http://www.ieee1904.org/3/email/msg00335.html
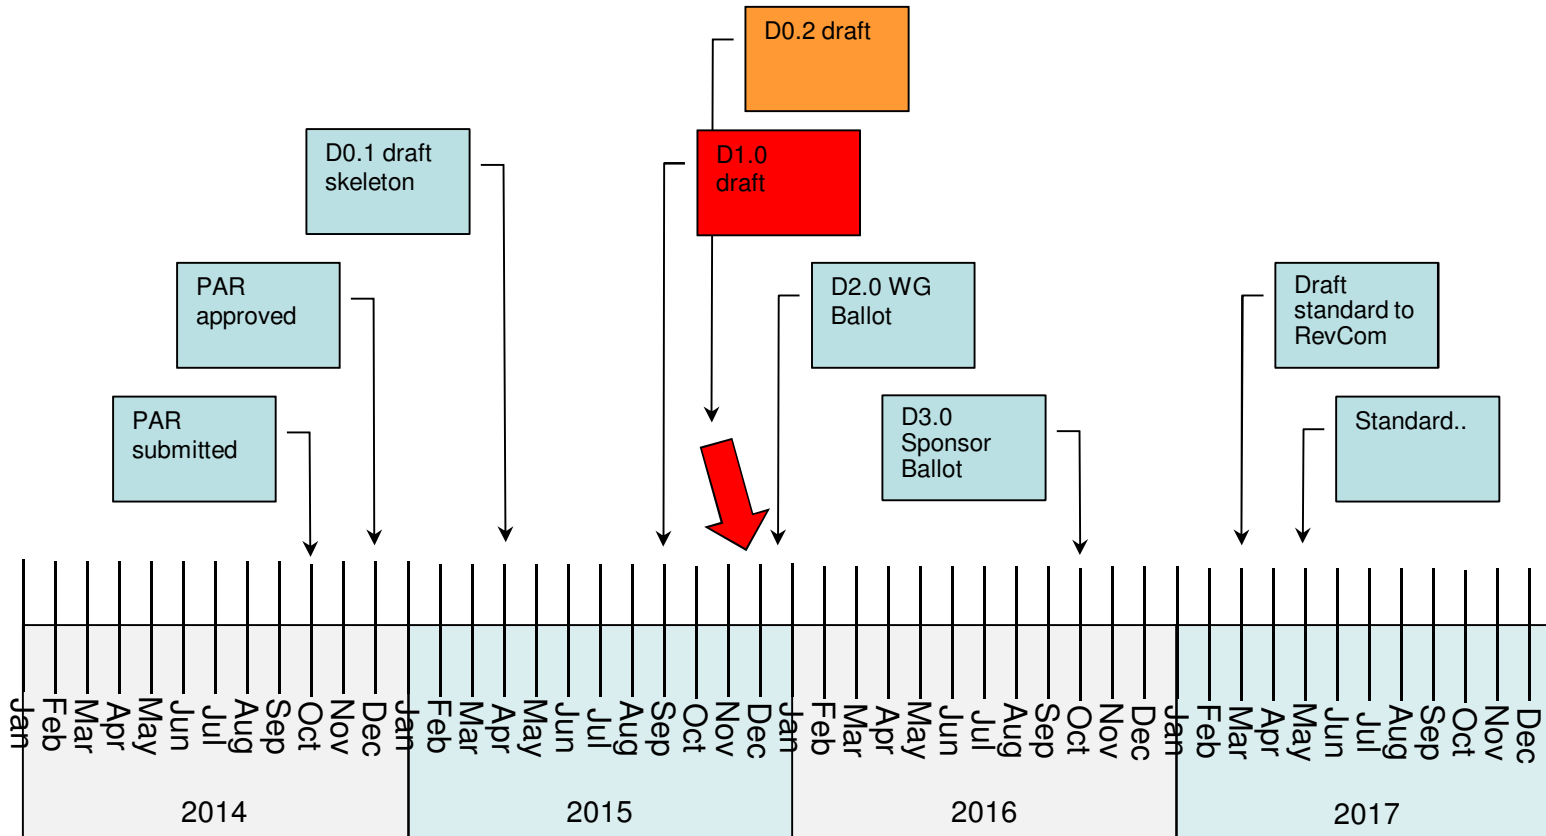

❑ Telco on 12/8/15:
  – Notes: not uploaded yet

Plan for this meeting

❑ Get following items frozen:
- Sequence number
- Timestamp
- RoE header (length field..)

❑ Get an agreement on CPRI mappers:
- CPRI mapper for structure agnostic
- CPRI mapper for structure aware
- Tunneling mapper

❑ Get an understanding how to proceed with CPRI control word handling.

Adjustments of the 1904.3 Timeline

- ❑ We are getting too much behind the original schedule!
- ❑ The primary goal to get D1.0 out asap.

Thank you..
