Work plan for this meeting

- Get an agreement on remaining bigger issues (10 contributions for this week):
  - EtherType and packet type
  - Timestamp precision, usage and encoding for agnostic mapper
  - Control path vs data path discussion
  - Multiple K-characters for agnostic mapper
- Approve that the editor produces D1.0 of the specification:
  - And we then move to the TF review phase.
- Review the 1904.3 timeplan.

Thank you..
