

802.3as Frame Expansion Task Force
802.1/802.3as joint meeting

Kevin Daines

World Wide Packets

Sacramento, California

Outline

- **802.3as objectives**
- **802.3as maximum frame size polls**
- **Minimum frames**
- **Maximum frame attribute**

Objectives

- 1) Preserve the IEEE 802.3 MAC data service interface
- 2) Preserve the basic frame format
- 3) Maintain the maximum data field length (1500 octets)
- 4) Increase the maximum frame size exclusively for optional prefix and suffix fields in envelope frames
- 5) Redefine the Tagged frame format as an envelope frame format
- 6) At a minimum, support:
 - a) IEEE 802.1Q Virtual Bridged LANs
 - b) IEEE 802.1ad Provider Bridges
 - c) IEEE 802.1AE MACsec
 - d) ITU-T SG15 Ethernet transport encapsulations
- 7) Investigate and define the largest maximum frame size with minimal impact to existing networks and standards

Straw polls: frame size

■ New max frame size preference:

| | 1,875 ¹ | 2,000 ² | 2,048 ³ | Other value | Don't care | Abstain | Total in room |
|-------------|--------------------|--------------------|--------------------|-------------|------------|---------|---------------|
| 9/04 FESG | 5 | 3 | 1 | - | - | - | 9 |
| 11/04 FESG | 4 | 6 | 4 | - | - | - | 28 |
| 11/04 .3 WG | 0 | 13 | 8 | 2 | 3 | 17 | ~70 |

¹1,875 is the maximum for 10 Mb/s repeaters w/ 3-bit elasticity buffers
Spec requires 2.4288 bit elasticity buffers; assumes implementations use an integral number (3) and not 2.5 bits

²2,000 is 2KB minus some arbitrary space for an internal switch header

³2,048 is the maximum size from the 802.1 work request

802.3as straw poll: #1

- **Minimum frame size discussion**
 - 1) Require all envelope frames \geq (64 octets plus prefix/suffix fields) = 2
 - 2) Allow 802.1Q Tagged frames to be 64 octets, require all other envelope frames to be as in #1 = 10
 - 3) Allow all prefix-only envelope frames to be 64 octets, all other as in #1 = 3
 - 4) No minimum data field/pad enforced for any envelope frame = 0

- **802.3as vote this morning**
- **In room = 15**

802.3as straw poll: #2

- **MAC frame size attribute discussion (Chicago-rules)**
 - 1) No attribute = 3
 - 2) Enumeration (1518, 1522, 802.3as) = 6
 - 3) Bit string = 0

- **MAC frame size attribute discussion (1 per voter)**
 - 1) No attribute = 3
 - 2) Enumeration (1518, 1522, 802.3as) = 5
 - 3) Bit string = 0

- **802.3as vote this morning**
- **In room = 15**
