           Bob Klessig VP, TC Co-Chair (bklessig@cisco.com)

To: Tony Jeffree, Chair, IEEE 802.1 (tony@jeffree.co.uk)

From: Metro Ethernet Forum

Dear Tony,

MEF has an on-going project on the Network Interface Device (NID) which plans to make use of IEEE 802.1aj work particularly in the areas of link status propagation, management and frame forwarding, and plan to keep you posted on our progress.

We would appreciate it if you could forward your latest draft to us in order that we can consider it for use in our work on this topic.

Can you give us an indication of likely sponsor ballot and standardization dates for this work?
