P802.1QCBdb Extended Stream Identification Functions

Resolution of Comments on
Project Authorization Request (PAR) and
Criteria for Standards. Development (CSD)

2018-03-07

802.11 Comment on PAR 5.2b

› Comment:
PAR 5.2.b: the PAR should be in present tense and describe the amendment scope. Delete the second sentence Suggest change to first sentence: "This amendment specifies procedures and managed objects that add new stream identification functions."

› Proposed response:
Accept

– 5.2b scope modified as proposed: "This amendment specifies procedures and managed objects that add new stream identification functions."
