To: Working Group 10 of IEC TC57
Christoph Brunner, Convenor, WG10, christoph.brunner@it4power.com
Maik Seewald, Project Lead, maseewal@cisco.com
Date: November 15, 2018

Dear Mr. Brunner and colleagues,

We thank the Working Group 10 of IEC TC57 for your recent liaison and your interest in our work. We have reviewed your request for information and are providing the latest revisions of the following draft specifications:

- IEEE P802.1AS-Rev
- IEEE P802.1ABcu
- IEEE P802.1Qcr
- IEEE P802.1Qcw
- IEEE P802.1CS

The P802.1CBcv, P802.1CBdb, P802.1Qdd, and P802.1CQ projects are at an early stage and drafts are not yet available for distribution.

We request that these drafts be stored for the use of Working Group 10 of IEC TC57 with password protected access. We would also request that you provide access to the draft specifications of Working Group 10 of IEC TC57 referring to IEEE 802.1 draft or published specifications.

Please note that the IEEE 802.1 Working Group is open to anyone and is based on individual participation. As a result, it is problematic to identify official liaison representatives from other organizations. We hope that we can continue to cooperate, both by liaison letters and by common participation in the two organizations.

IEEE 802.1 meets again 14-18 January 2019 in Hiroshima, Japan and 11-15 March 2019 in Vancouver, BC, Canada. IEEE 802.1 face-to-face meeting details are available at: <http://www.ieee802.org/1/meetings>.

Best regards,
Glenn Parsons
Chair, IEEE 802.1 WG
