

Comments on P802.15.7a PAR & CSD

From 802.1

PAR

2.1 Title

- Change 'defining' in the title to ':'.

5.2.b. Scope of the project:

- Definitions have a specific clause in the amendment. This amendment 'specifies' a standard not 'defines' it. Change 'defines' in first sentence to 'specifies'.
- The acronym RF is used without definition until section 5.4. Spell out on first usage.
- The acronyms MIMO and MIMO-OFDM are used without definition. Spell out on first usage or add 8.1 Explanatory notes.

5.5 Need for the Project

- The acronyms ADAS and V2X are used without definition. Spell out on first usage or add to 8.1 Explanatory notes.

CSD

1.2.2 Compatibility

- It is not clear to 802.1 how this amendment is compatible with 802.1Q. How is it envisaged that cameras can be deployed in a network where backhaul of the video signal to a control center will be over 802.3? Please clarify how this amendment will interwork with an 802.3 and 802.1 TSN network.
