

Result of 60802 digital data sheet discussion

2022-05-06

Günter Steindl

Thats the PAR extention!

60802 selects for the station available features and YANG modules

60802 specifies YANG module(s) adding missing information about quantities and available features (Read only)

All of the above YANG defined information is available in the Digital Data Sheet created out of the station based on RFC9195.
