Editor's Report
60802 Draft 1.3

November 2021
IEEE802 Virtual Plenary

Jordon Woods, Analog Devices

Introduction

- The existing Annex Z contains outdated items and is not organized in a fashion that allows us to readily address the gaps.

- A newly formatted Annex Z is proposed for the group's review. Please note, this contribution does not cover new Annex Z items resulting from the d1.4 TG ballot.

  - https://www.ieee802.org/1/files/private/60802-drafts/d1/60802-woods-D1-3-NewAnnexZ-0122-v01.pdf

- An overview of the disposition of existing items in the current Annex Z is also provided

  - https://www.ieee802.org/1/files/private/60802-drafts/d1/60802-woods-D1-3-OldAnnexZ-0122-v01.pdf

- The intent is to make Annex Z useful to identify and address work items that must be completed to finalize 60802.

Status of Gaps (the editor's take)

- 🟢 Security - Multiple contributions from different contributors. The appropriate expertise is on the job.

- 🟡 Time Sync - Multiple contributions from different contributors. The appropriate expertise is on the job. However, no viable solution meeting our requirements has been identified.

- 🟢 Remote Management – Lots of progress thus far. More contributions expected. The appropriate expertise is on the job.

- 🔴 Data Sheets – Lots of discussion regarding content. Some progress on tools to support the effort. Yang expert needed to complete.

- 🟡 CNC- Good initial cut at management model. More definition needed. Strong dependency on Qdj.

Thank you
