| IEEE 802.1 REVISION REQUEST 0007                                     |
+----------------------------------------------------------------------+
```

DATE: 01Aug2011
NAME: Craig Gunther
COMPANY/AFFILIATION: Harman International
E-MAIL: craig.gunther@harman.com

REQUESTED REVISION:
     STANDARD: 802.1Q/D1.5
     CLAUSE NUMBER: 10.6
     CLAUSE TITLE: Protocol Operation

RATIONALE FOR REVISION:

operPointToPointMAC (defined in clause 6.6.3) is referenced several
times in 802.1Q/D1.5. Most of those references correctly point to
clause 6.6.3. When 802.1ak was rolled into 802.1Q it contained
references to clause 6.4.3 (clause 10.6, pg 164, line 21) which were
not updated to 6.6.3.

The MIB variable ieee8021BridgeBasePortAdminPointToPoint (clause 17.7.2,
page 513, line 5) also has the old reference to 6.4.3.

PROPOSED REVISION TEXT:

Replace references to 6.4.3 with 6.6.3.

IMPACT ON EXISTING NETWORKS:

This should have no impact on existing networks. It is simply a
correction for an invalid reference.
