REQUESTED REVISION:
STANDARD: 802.1Q-2011
CLAUSE NUMBER: A.31
CLAUSE TITLE: Stream Reservation Protocol

RATIONALE FOR REVISION:

Draft 3.2 of SRP inserted a new clause 35.2.5 which pushed the existing clause 35.2.5 to 35.2.6.

Unfortunately that was not adjusted in the PICS proforma.

Because of this oversight SRP-19 Feature and Reference columns are both referencing the wrong clause.

They should reference 35.2.6 instead of 35.2.5.

PROPOSED REVISION TEXT:

Change SRP-19 PICS Feature column to "Does the implementation support the automatic modifications to

Stream reservations as described in 35.2.6?".

Also change the Reference column from "35.2.5" to "35.2.6".

IMPACT ON EXISTING NETWORKS:

This error was report to me by the AVnu Alliance. They have corrected the error in their own documents so

I don't think this is critical at this time.
