IEEE 802.1 REVISION REQUEST 0038

DATE: 5 July, 2012
NAME: Ben Mack-Crane
COMPANY/AFFILIATION: Huawei
E-MAIL: ben.mackcrane@huawei.com

REQUESTED REVISION:
STANDARD: 802.1Q-2011
CLAUSE NUMBER: 6
CLAUSE TITLE: Support of the MAC Service

RATIONALE FOR REVISION:

In reviewing 802.1AC some editorial issues were noted in text that is also included in 802.1Q-2011. The same editorial corrections should be made in 802.1Q unless the affected text is removed in favor of maintaining a single copy in 802.1AC.

PROPOSED REVISION TEXT:

- 6.1.2 Replace ", but include all of" with "(but include all of)".
- 6.7.1 Replace "Default User Priority" with "Default Priority".
- 6.7.2 Replace "user_priority" with "priority" (two occurrences).
- 6.7.2 Replace "Default_User_Priority" with "Default Priority".
- 6.7.4.1.1 Replace "user_priority" with "priority".
- 6.7.4.2.1 Replace "user_priority" with "priority".

There are additional instances of ?user priority? that could be replaced with ?priority? in clauses 12.13.3.3.3 b), 12.13.3.4.2 d), and C.3.3.1 and Figure G-1. There are also instances of ?user priority? in 17.2.2 c) and in descriptions in the IEEE8021-TC MIB, IEEE8021-BRIDGE MIB, IEEE8021-PB MIB, and IEEE8021-PBB MIB. The IEEE8021-BRIDGE MIB uses (the majority) appear to be from RFC 4363.

IMPACT ON EXISTING NETWORKS:

None (these are editorial corrections).

Please attach supporting material, if any
Submit to: - Tony Jeffree, Chair IEEE 802.1
and copy: - Paul Congdon, Vice-Chair IEEE 802.1
