| IEEE 802.1 REVISION REQUEST 0133 |
+-----+

DATE: March 18, 2014
NAME: Norman Finn
COMPANY/AFFILIATION: Cisco Systems
E-MAIL: nfinn@cisco.com

REQUESTED REVISION:
STANDARD: 802.1AB-2009
CLAUSE NUMBER: E.8.1
CLAUSE TITLE: aggregation status

RATIONALE FOR REVISION:

Table E.2 is wrong. It numbers the bits 0-7, and Figure D.2 numbers them 1-8. This is not a major problem; most readers should be able to detect the blunder and do the right thing. However, this TLV is now documented in three places:

- < 802.1AB-2009, as just described
- < 802.1Q-2012, exactly as in 802.1AB-2009
- < P802.1AX-REV, corrected and extended. This standard is starting sponsor ballot.

PROPOSED REVISION TEXT:

Delete section E.8 and renumber the remaining sections of Annex E. Replace all references to E.8 in the document with the corresponding references to 802.1AX-REV Annex F.1.

IMPACT ON EXISTING NETWORKS:

None.
