

**IEEE P802.11  
Wireless LANs**

**Report of Ballot on IEEE P802.11 D3**

**Date:** March 6, 1996

**Author:** Vic Hayes, Chair IEEE P802.11  
Lucent Technologies  
Zadelstede 1-10  
Phone: +31 30 609 7528  
Fax: +31 30 609 7555  
e-Mail: vic.hayes@wcd.nl.att.com

The statement:

“I approve the IEEE P802.11 proposed draft standard P802.11/D2 to be forwarded for sponsor ballot”  
was defeated with the following result:

**Ballot result**

Of the voting members the result is 42 approving and 18 not approving. That is a support of 70 % (75 % is needed).

The complete result is as follows:

Member type	Do not approve	Approve	Grand Total
Aspirant members	0	1	1
Nearly Voting members	1	0	1
Regulator.	1	0	1
Voting members	18	42	60
Grand Total	19	42	61

The ballot is valid because 81.1 % of the voting members (we had 74 voting members at the beginning of the ballot) returned their ballot. (50 % is required)

The “vote” from the Regulator is the comment I received as result of the review of draft D3.0 by the Japanese Ministry of Post and Telecommunications. (code kaf) I sponsor his input as negative comments to our ballot, because I find compatibility with the Japanese market very important.

I have also added the comments from the IEEE editor, Valerie Zalente. (code vz)

**Comments**

I have made the best effort to consolidate the comments into a set of documents with document numbers consisting of the number and a sequence number. This document is -1, -2 is the general comment, comment on the foreword, title pages and so on and on the annexes. -3 is on clauses 1-6, -4 is on clauses 7-8, -5 is on clause 9, -6 is on clause 10-11 and -7 is on clauses 12-16 (the PHY part).

The comments have been sorted on section number. I have left the Sequence number empty for the use of the editors of the documents for the comment resolution.

**Tables with votes and with initials**

The remainder of this document shows the vote per individual. I have also provided a list with the initials used in the tables for the source of comments, both sorted on last name and on initials.

Please let me know if your comments were not correctly represented in this document.
