Single Twisted Pair Auto-Negotiation Update

IEEE 802.3 1TCPE Study Group - July 2014

William Lo, Marvell

Auto-negotiations adopted as 1000BASE-T1 objective

▶ **Voted in during 802.3bp task force meeting in May 2014**

▶ **Vote occurred after close of 1TPCE study group meeting**

What has happened so far

- **March 2014 - Details of single pair auto-negotiations presented**
  - **Lo_3bp_03_0314.pdf**
  - **Lo_3bp_04_0314.pdf**

- **May 2014 – Improvements on above**
  - **Thaler_01_0514.pdf**

- **May 2014 – Added auto-negotiation to 1000BASE-T1 objectives**
  - **Lo_Thaler_Tazebay_01_0514.pdf**

- **June 2014 – Offline discussions**

- **July 2014 – Improvements on above**
  - **Lo_02_0714.pdf**

Should be in place for 1TPCE to use

▸ **Commitment from several individuals working in 802.3bp task force to solidify auto-negotiation proposal before Nov 2014 plenary meeting**

- ▪ **Individuals from Marvell and Broadcom will contribute to the effort**
- ▪ **Everyone is welcome to join the effort**

▸ **Good starting point exists for consensus building**

- ▪ **Base state machines – Lo_3bp_04_0314.pdf**
- ▪ **Improvements – Thaler_3bp_01_0514.pdf**
- ▪ **Improvements – Lo_3bp_02_0714.pdf**

Recommendation

▸ **Change the wording of 1TPCE auto-negotiation objective to be more specific and concrete**

▸ **Current wording:**
   ▪ **The resulting standard will not preclude single pair auto-negotiation**

▸ **Proposed wording:**
   ▪ **Supports single twisted pair auto-negotiation as defined in 802.3bp**
