Discussion

General questions of clarification on SG documentation. No unanswered questions and concerns.

Next interim meeting is at the May 24-28 in Geneva Switzerland.

Mark mentioned that the exact number of days required for the task force to meet in Geneva depends on the number of presentations and the amount of discussion on technical decisions but he estimates to be around 2 days.

Peter Anslow mentioned that if the task force can agree on key technical options, as long as we follow the same format as the other clauses we may be able to have a draft 0.1 at the Geneva meeting.

Mark Nowell encouraged the group to work off line to reach consensus on key technical issues before the Geneva meeting

Motion to adjourn: Peter Anslow; second: Jonathan King,
Passed by voice without opposition.

The meeting was adjourned at 9:38 AM.
