There was general discussion regarding the presentation.

- SG Chair (D'Ambrosia) voiced support for bulleted approach of responses, as this would be helpful if the project got divided up at later point.
- Compatibility CSD responses were revisited. In general, support for new responses to Compatibility criteria, which had been topic of much discussion at 200GbE CSD Response ad hoc call.
- In general, support for proposed answer to “Consideration of operational costs (e.g., energy consumption).

Updated presentation, based on ad hoc discussion, noted below –
