Meeting Minutes of the TelCo 2013-06-12

Participants:
- Norm Finn,
- Albert Tretter,
- Ludwig Winkel.
- Pat Thaler
- Dan Sexton
- Christian Boiger

Apologizes from Michael and Oliver.

Agenda:
*   Assign presenters to certain topics
*   Define the slide deck
*   Review presentations

We discussed the different approaches (see Table 1) to assign presenters to the agreed topics according to Victoria the meeting.
We decided to go along with the Approach 3.

The slide deck shall be a neutral slide not showing company specifics. Ludwig will create the master.

Norm and Albert sent out their proposal of presentations. The presentation of Albert was discussed. Dan will present this part. Norm, Dan and Albert will work together be correspondence to optimize the presentation.

Albert will contact Thomas Hogenmüller to get also Automotive as a part of the use cases.

Respectfully submitted
Ludwig Winkel

Table 1 – Tutorial topics and presenter assignments

	Minutes		Approach1	Approach2	Approach3
Welcome, Introduction	5		Ludwig	Ludwig	ludwig
Market needs and potential	5		Oliver	Albert	Dan
Benefits	10		Oliver	Albert	Dan
•Set up the problem				Albert	Dan
Status today with Ethernet parallel networks and legacy networks	5		Albert	Albert	Dan
–Describe a converged network (802.1 approach)				Norm	Norm
Problems				Norm	Norm
•Improving Latency is not the problem	5		Norm	Norm	Norm
•It's making more the bandwidth left over after the critical traffic usable by the other traffic	5		Norm	Norm	Norm
Approach					
•Technical and economic feasibility	5		Pat	Norm	pat
–Just speed things up (28.4)					
•Undersubscription/Overprovisioning under 28.4	5		Dan	Norm	pat
–Parallel links	5		Dan	Norm	pat
–Fragmentation above the MAC					
•Why hop by hop	5		Christian	Norm	pat
•Why fragments are not full frames	5		Christian	Norm	pat
Conclusion	5		Michael	Ludwig	Michael
Discussion	25		Ludwig	Ludwig	Ludwig
Sum	90	90			
Spare time	0
