

10GBASE-LRM MAY 2005

Comments requesting study

- **115,159,160,387** **Operating range for 50 μ m 500/500 and 400/400**
- **166** **Effect of 1355 nm TX wavelength on link length for OM1 and OM3**
- **173, 276** **TP2 eye mask coordinates**
- **174** **Usefulness of dropping stressor from TWDP to create TWP**
- **187** **Connector loss w/ controlled launch vs OFL**
- **251, 278** **Changes to TWDP algorithm to normalize power correctly**

10GBASE-LRM MAY 2005

Comments requesting study, con't.

- 279 Look for other TX impairments and deal with them
- 290 Copyright release for Matlab code in TWDP
- 337 Peak noise power in TP3 comprehensive test
- 392 Pre-compensation
- 393 Finite equalizers in TWDP
